Somnia Banquet, bed

Espace Aygo

EDITION
Unique piece

Somnia Banquet is a merge of a bed together with a conversation pit. Above that you have a big lamp that can lower down to create a closed off atmosphere and can be lifted up to have an open atmosphere therefore the object directs the social and spacial dynamics. This dynamic interplay of the piece makes less a static furnishing than a choreographic device.

OVERALL DIMENSION WITH EXTERNAL FEET:	L: 280 x W: 295 x H: 75 cm L:110.24" x 116.14" x H: 29,53"
NET WEIGHT:	300 kg, 661.38 lb
YEAR:	2025
PRICE:	Upon request

MORE INFO:

In Epace Aygo's home, everything is oversized, from the objects to the spaces themselves, because they love doing things together. This philosophy of shared living is reflected not only in the layout of the space but also in the way they create collectively, turning every element into a shared experience.

Exhibition:

The Theatre Of Things

THE THEATRE OF THINGS
7 nights and 7 days living with collectible design

Delvis (Un)limited - 6th to 13th of April 2025
The collectible design gallery/brand Delvis (Un)limited presents an exhibition performance that showcases life in a living space designed by 7 designers. Challenged to juxtapose and intertwine their languages, the designers are also invited to live in the space day and night, bringing to life a sort of domestic stage on the street.
The exhibition is curated by Valentina Ciuffi and Joseph Grima.
The creative direction is by Studio Vedèt, and the set design is by Space Caviar.

BIO DESIGNER:

Espace Aygo is a design collective, a home, workspace, and creative playground within a 20th-century Belgian house. The collective functions as a single entity, with four individuals crafting everything—from spoons to sofas, baths to cat-boxes—with functionality proven through use. Their work highlights the transformative power of objects and spaces, shaping new ways of being, doing, and knowing. Objects are treated as catalysts for change, capable of inspiring behaviors and altering patterns.
As world-builders, they challenge the dominance of a single reality, embracing multiple rich and valid realities. Their creations serve as portals to these realms, inviting exploration of diverse narratives.
