QUOTE:

"We always conceive our design pieces as a commixture of artistic expression, functionality and sophisticated technical solution. Despite the bold design and the strong sculptural character, we also value very much that the piece could be use as a functional and usable table. We also made the legs to be completely demountable from the top, making it easily transportable and placed into houses despite its big dimensions."

Exhibition:

Falling Into Life

The event explores the relationship between nature, art, and design, bringing projects to life that integrate impressive craftsmanship with innovative materials. The exhibition invites the audience to experience a unique sensory journey through the sinuous, sculptural forms of the pieces, telling a dialogue between the past, present, and future of design, celebrating the uniqueness and creativity of each project.

BIO DESIGNER:

dAM Atelier is a duo of Italian architects Paolo d'Alessandro and Marco Malgarini sharing the passion for design and bespoke furniture, based in Geneva (CH) and Milano (ITA).

"Our design ethos is a minimalist aesthetic that embraces the continuous, iterative process of adding and subtracting information, one that combines different and contrasting raw elements into unexpectedly harmonious, modular compositions of bold geometric and architectural value."

The final result is a commixture of conceptual, technical and artistic research that is carried out with the ability to arouse emotions and amazement in the viewer.
